

Brain Break Breathing

Bubble Breaths

Breathe in deeply and form a bubble in your mouth. Your cheeks should be puffed out. Blow your bubble out of your mouth and push it away from you by blowing out hard and strong. Do this slowly and picture your bubble floating away. Keep breathing in and out deeply. Close your eyes and think about where else your bubble could go. Can you blow it far away? Can you blow it to a friend? Imagine your bubble is returning to you. Open your mouth and catch it for next time. Repeat.

Brain Break Breathing

Bumble Bee Breaths

Open your hands out with the palms facing towards your face. Place your thumbs over your ears and your fingers over your eyes. Close your lips with your teeth slightly apart. Inhale deeply through the nose and breathe in. Count silently 1, 2, 3, 4, 5.

Exhale slowly through your mouth and make a humming sound like a bee. Count silently 1, 2, 3, 4, 5. Repeat.

Brain Break Breathing

Balloon Breaths

Sit comfortably on the floor with your legs crossed in front of you. Imagine that there is a big balloon in your belly. Place your hands over your belly. Take a big deep breath in, sitting up straight and make your belly puff out as if it was a balloon filling with air. Then exhale slowly like you are letting the air out of a balloon a little at a time. As you let the air out, slowly roll your shoulders and bend forward. Repeat.

Brain Break Breathing

Starfish Breaths

Sit on the floor with your legs comfortably crossed in front of you. Open your left hand and extend it slightly in front of you so it looks like an open starfish. Take your right hand and extend your pointer finger. Beginning with your left thumb, take your right pointer finger and go up the outside thumb while taking a deep breath in. Go down the inside of the thumb and breathe out deeply. Continue the deep breathing in while going up each finger and exhaling when going down each finger. Once you are finished, switch hands and repeat.
