

# Christmas at St Giles' and St George's

Never has it been more important to teach our children the true meaning of Christmas. The time of the year where we learn about the joy of giving and the birth of Jesus giving us hope for a better future. We can share time with our families and show love for one another. It is also a time of great happiness where lasting memories are made. We know that our families have experienced extreme anxieties and stresses throughout lockdown, so we have planned a lovely week for our children at school. We hope to make some great memories and sprinkle some glitter on your children.

## Christmas Dinner and Jumper Days

Christmas jumper day is officially on Friday 11th December and we welcome our children to wear jumpers on this day. To get more use from our jumpers, we are also asking our children to wear them on our Christmas Dinner days.

**Wednesday 16th December—EYFS and KS1**

**Thursday 17th December—KS2**

## Christmas Disco Day and Santa

On **Friday 18th December** each class will be having a Christmas party day where they will have an opportunity for disco, games, songs and dance videos. Giving all children the opportunity to 'Rock around the Christmas tree'.

Children are invited to wear party clothes on this day and each child will receive a pre-packed bag of sweets and treats. Santa may also leave some treats!

## Santa and Panto time

One of our special treats for the children each year is a panto visit, unfortunately we are unable to allow this currently, so instead we are bringing the panto to the children. The school has paid for a panto treat for the children. This will take place during the last week of the school term.

## Advent and Christmas

During this advent season we are preparing the children for the birth of Jesus, children have been working through their acts of kindness advent calendars and studying the Christmas story. EYFS are looking forward to sharing their Nativity play with children whilst KS1 will be sharing their Christingle service. This sharing will be done via an online platform details of which will be shared with parents by the end of the week.
